

Does the INFJ in Your Life Like You?

Take This Quiz to Find Out!

INFJs are known to be enigmas. Even they don't really understand why they do all the things they do. But despite this lack of understanding and their preference to keep what they do know private, even they can't always hide their true feelings for someone.

If there's an INFJ in your life and you want to know how they feel about you, the best way to find out would be to ask them. But if you're not ready to ask them and you don't want to share how you feel about them yet, this quiz might just help you figure out whether they see you as a friend or something more.

Just know, this isn't a foolproof quiz and it's not based on science. It's only meant to act as a guide if you're curious how the INFJ in your life feels about you. Keeping that in mind, enjoy!
